## EXPERIENCE

### Freelance Full Stack Developer

- Remote | Jan 2024 – Present
- Developed multiple responsive and dynamic web applications using React.js, Node.js, and MongoDB.
- Built a complete Hotel Room Booking System with features like image upload, room listing, and real-time availability updates.
- Collaborated with clients to convert design mockups (Figma) into fully functional websites.
- Created reusable UI components using Tailwind CSS and Material UI for faster development.
- Deployed applications using Vercel and Render with integration of RESTful APIs.
- Managed frontend and backend independently, ensuring full project delivery.

## LANGUAGES

- Urdu (Native)
- English (Professional)
